I called Progressive contracting today and told them we could not continue our review until they send the rest of the plan (evidently in their hurry to get it printed out so they could give it to me when I was down there, the missed several pages, including the last of section R647-4-109, all of 110 and the surety calculation. They will try to email the missing data, but if it is too large, they will print and send us a hard copy. SO - until we get this material, I assume the reviewers are off the hook to get this out.
